1. Introduction

Introduction of the team members, the team website and the project to the new supervisor.

2. Current challenges and priorities

- Trouble using the cslinux and connection to the databases.
- Merging of the pieces of the code done by the team members during the winter break.
The solution is to use the Git in Android Studio.

3. Supervisor's proposed ideas:

- To think more about the 'creative' part of the app which is not only the UI.
- To show the remaining of the route from the current hand-hold position chosen by the user.

4. Next meeting

- Monday, 4th March 2019 at 11:10 to 12:00 (TBC)
