

Formal Meeting 6 on 21st November 2018, 16:00-16:30

Participants: Paul Dempster (supervisor/client)

Team 15: Denis Stepanov, Melanie Cheong, Mingda Liu, Tianhao Li,
Yiming Chen, Masrur Sobirov

1. Show Prototype:
 - a. Database
 - i. The app should be able to connect to database to get information of walls and routes;
 - ii. There should be a local copy of database on the phone;
 - iii. Internet is required for update;
 - b. Climber vs Manager
 - i. Extra buttons for manager, e.g. 'add route' button
 - ii. Become a manager by adding a wall
 - c. 'Favourite' function
Above the list of walls, having the 3 most favourite routes in the main interface.
2. Survey:

Approval of survey.
3. Meetings left: 4 more meetings during teaching time, 1 meeting before exam.
4. Goal for next week:

Finishing the survey and focus more on internal report, also adding functionalities and setting database.
