

Formal Meeting 13 on 4th March 2019, 11:10-12:10

Participants: Sheung Hung Poon (supervisor)

Team 15: Denis Stepanov, Melanie Cheong, Mingda Liu, Tianhao Li,
Yiming Chen,

Absentees: Masrur Sobirov

1. Review last week challenges and the corresponding solutions

- DB connection: Figure out the server and the back end using PHP. Now we can connect to DB successfully.
- merging: Using gitlab to upload and share the individual work. But some members have problem in pushing, which we will resolve later.

2. The discussion about DDL and time distribution

- 4.11 for report and sw. We decided to cope with the final report and software concurrently by diving into subgroups and use the rest of time to deal with presentation.

3. Supervisor's proposed ideas

- To come up with some extra functions about user interaction.
- Think about the procedures and designs about the creative ideas in advance.
- Consider another method to show the routes.

4. Next meeting

- An information sharing meeting with Paul if possible. (TBC)
